Experience

Golive | remote

Full Stack Developer | 02/2024 - Present

Responsible for developing and maintaining web applications using NextJs, React Native, AdonisJs, PostgreSQL. Key responsibilities include:

- Design and implement scalable, responsive web applications using Next js
- Develop and optimize server-side logic and RESTful APIs using AdonisJs
- Implemented complicated unique feature requests on our products web platform for users organisation requests
- Maintained and scaled our web products to keep the system in optimal standard for the best User experience
- Developed the mobile app platform version of our products using React Native development
- Create and maintain database schemas and write efficient SQL queries for data manipulation
- Collaborate with UX/UI designers to implement intuitive and visually appealing user interfaces
- Integrate third-party services

Retrodevs | Mainland, Lagos state

Software Developer | 06/2022 - 01/2024

Developed diverse web applications for multiple clients across various industries. Key achievements include:

- Successfully delivered over 10 projects for clients in e-commerce, healthcare and logistics industry
- Designed and implemented a scalable e-commerce platform using React, Node.js, MongoDB
- Designed, planned and implemented a scalable Order Management System (OMS) software using adonis js, postgres SQL and React Vite front-end framework
- Designed, planned and implemented a full scale Enterprise Resource Planning (ERP), Systemed designed a scabled system for handling multiple organisation structure with multiple micro services
- Implemented responsive design principles across all projects, ensuring seamless user experience across devices
- Utilized version control (Git) and project management tools to maintain efficient workflows and clear communication with clients
- Consistently delivered projects on time and within budget, maintaining a 100% client satisfaction rate
- Adapted to diverse tech stacks based on client requirements, demonstrating versatility in programming languages and frameworks
- Mastered the use of task management tools like Trello, Asana, notion and JIRA. As I operated in an agile development cycle

Skills

Software development, Devops, node, React Native, Adonis js, Front-End Development, Full-Stack Development, Back-End Development, Next js, Vite, Mobile development

Education

University of Benin | Benin city, Edo state

Computer engineering | 08/2024
